MEMBERSHIP INFORMATION

MEETINGS

Meetings are the 2nd Saturday of each month in North Georgia College's Planetarium on the second floor of the Health & Natural Sciences Building or as noted in the newsletter or on the Website.

NEWSLETTER

Members receive a monthly newsletter via email. The newsletter has reports of the previous month's club events, information on upcoming club events, alerts and maps for predicted sky events, and a swap shop section.

OBSERVING SESSIONS

Monthly observing sessions are scheduled to take advantage of unique astronomical events such as: The Comet Crash into Jupiter, Saturn's Ring Plane Crossing, Lunar and Solar Eclipses.

Many non-scheduled observing sessions are arranged by members around moonless nights to see faint objects far out in Space.
